‘Whether the weather’ / ‘Early to bed’ sayings photocopied onto OHT

Assembly plan

Aims

To look at some of the excuses used by children who use the car to get to/from school and to look at the advantages of travelling at least part of the journey to school on foot.

Introduction

Ask the children how they got to school this morning - Put up your hand if you came to school by car….on foot…..bike….bus…..horse……scooter

Explain that October is School Walking Month and that all over the country teachers and pupils are thinking about how they get to and from school each day.

Too many cars outside school can cause huge problems - ask for suggestions e.g. pollution, children being knocked down/injured etc.

Main presentation

Tell the children these interesting facts about walking/feet:
- How far do they think most of us will walk in our lifetimes?
  - if we added up our steps they would take us around the world more than 3 times!
- We have a quarter of the bones in our bodies in our feet!
- The longest footpath in the world is 2,158 miles long! It is the Appalachian National Scenic Trail in America
- The biggest feet in the world belonged to Robert Wadlow, who died in 1940. His feet were 47cm long and he wore size 37 shoes.

Discuss the health/other benefits of walking - these include: fewer cars mean less pollution / congestion; walking is a good form of exercise - regular walking means a healthier heart (as recognised by the British Heart Foundation); can see more / meet others when you walk

Ask the children who came to school by car to explain why they did not walk, their answers will include: got up too late; live too far away from school; parent is on way to work; raining etc
Explain that most people have no excuses not to walk some/part of the way to school.

The children could be given time to practise this rap and then perform it in assembly. (Rap based on work by pupils at St Anthony's RC Primary School in Clayton, who delivered their version at a Healthy Schools Award Ceremony wearing Wellington boots and carrying umbrellas.)

We are trying to persuade you
To walk with friends to school,
It will make you feel much healthier
So why not start soon?
Even if you live far away,
You can’t get out of it. No Way!!!

Chorus
Kids from our school have healthy rules,
The main one is we walk to school

Why not park away from school
And walk from there, it’s really cool.
Just five minutes is all we ask
And that will help us in our task
If you use our suggestion
We’ll see a reduction in traffic congestion.

Chorus
Reflection

Remind children that October is School Walking Month, and ask them to talk to their parents about the possibility of using Park and Stride to get to school if they have to travel by car.
Praise those children who walk all/part of the journey to/from school.
There really are no excuses!
Whether the weather be fine
Or whether the weather be not
We'll weather the weather
Whatever the weather
Whether we like it or not!
Early to bed
And early to rise
Makes you
Healthy, Wealthy and Wise
